

Year 6 Family Learning 2019

Alongside our Transition Days all prospective parents/carers and children are invited to attend our Family Learning Sessions during the Summer Term. This is a great opportunity to experience learning together as a family, learn about the content and style of different lessons and to explore what the curriculum will offer during the course of Year 7.

This year we are offering the following subjects;

- Science
- Art and Craft
- Spanish
- Cooking
- Mindfulness
- English
- Maths

The English and Maths sessions will be held in our Main Hall which can accommodate up to 250 people. All other subjects will be more practical and are classroom based which means places are limited per session so please book early.

As you will see from the timetable our classroom based subjects are repeated, to give families more flexibility. Initially places will be booked on a first come first served basis, however further sessions may be added to meet demand if required.

I must stress that these sessions are not mandatory, and you should not feel pressured to attend all subjects. However we do encourage families to attend the Maths and English evenings, which are our most popular. Feedback from these subjects in previous years has always been very positive from both children and parents, and this has certainly had a positive impact on the children's attitude to learning come September.

Booking is essential for ALL of these sessions. To do so please contact Mrs Michelle Richardson, mrn@cardinalhume.com or telephone 0191 487 7638. We will need your child's name, number of places required, and which session/s you would like to book.

Year 6 Family Learning 2019
