Student Facilities

Our School Direct programme aims to embed the trainee at the heart of a school. The trainee will start the year in school on the first day of term and work the life of a teacher for three terms. Trainees are treated as members of staff and expected to behave in line with the conditions and expectations of a teacher: this includes duties, meetings and extra curricular activities. Trainees benefit from a professional and social life that reflects the school ethos and community.

All trainees will be registered for the PGCE with St Mary's University College or Newcastle University and benefit from all the support the university has to offer.
