

## Year 11 Exam Preparation and Study Timetable

Summer 2016

### Information for Pupils and Parents

- All pupils have their own bespoke examination timetable, which should be used in conjunction with the information below. Full attendance in these examinations is crucial. Failure to attend any exam will result in a mark of zero. These are external examinations and can only be sat at the times published. **Exam times are outlined in red below.**
- Booster sessions take place directly before most examinations. It is very important that pupils attend boosters before examinations.
- Longer study sessions take place after the half-term break. It is very important that all pupils follow the timetable carefully and attend the sessions for all of the subjects in which they have examinations. Attendance is compulsory.
- Some subjects will offer study sessions during the half-term break. For these sessions, those involved will be notified individually.
- Pupils must line up in the atrium, in class groups, in good time before all examinations.
- Pupils must bring a black pen, plus any other essential equipment, to each examination.
- Mobiles phones must be switched off and left in lockers, or handed in to invigilators at the start of each examination.
- Bottled water may be taken into examinations. No other food or drink permitted.
- Uniform/conduct must be impeccable at the start of, and during, each examination.
- There will be opportunities for pupils to complete last minute revision activities throughout the course of the examination period. Therefore, it is vital that all pupils have purple revision folders with them in school at all times.
- **Before study leave commences:** All pupils must attend normal lessons when not in examinations, and follow the normal school day.
- **When study leave commences:** 1) Pupils must follow the compulsory timetable outlined below. 2) However, they should only attend the sessions for subjects in which they have an examination. 3) When pupils have morning examinations, they must attend registration as normal. 4) Full uniform is compulsory. 5) If pupils have more than one examination or study session in one day, they will not be permitted to leave the site between these times.
