

Cardinal Hume Catholic School

Summer School 2021 Summary Report

INTRODUCTION

Summer School is an annual event as part of our Y6/7 Transition programme, running in Week 5 of the summer holidays each year. This year it was particularly significant as for many of our prospective Y7 students, as it was their first opportunity to visit the school in person.

After the difficulties and limitations of the last academic year, we were keen to extend Summer School to include some of the Outdoor Education activities that students had missed out on. The Outdoor Summer school ran in week 2 of the holidays and students were invited to attend activities within year-group bubbles.

STAFFING SUMMER SCHOOL

The vast majority of staff were qualified teaching staff, administrative and support staff from our school. We also engaged the services of an Outdoor Education organisation with whom we work on a regular basis, and were delighted to have the support of the Princes' Trust team who delivered a series of team building / personal development activities throughout the Y6 Summer School.

We were very grateful for the wonderful support provided each day by a team of 6th form students, volunteering as part of their John Paul II award.

ACTIVITIES

For years 7-12 the Outdoor Summer School year group bubbles were offered gorge walking, canoeing, caving and outdoor survival skills.

Y6(7) Transition Summer School activities included team building / personal development activities with the Princes Trust, a transition Pastoral programme (Progress), and curriculum classes – please see the timetable below.
